Pseudo code for basic yatzy game flow:

```
BEGIN

    REPEAT

        REPEAT

            Throw dices in Dicehand
            Select dices to save
            Increment thow_count

        UNTIL throw_count = 3

        Add sum of all saved dices to round_score
        SAVE round_score to round_scores

    UNTIL round_count = 6

    FOR each score in round_scores
        add score to total_score
    ENDFOR

    SHOW total_score

END
```
